|----------------------------|---|
| PC Wireless LAN | How to setup a Wireless LAN connection 【for Student】 |
|----------------------------|---|

★This service provides wireless LAN access points in our campus. You can connect to the Internet via those access points.

■ Authentication codes

• The authentication codes for this service are depicted in the following table:

| | |
|----------|--------------------------------------|
| User ID | [SubID] @student.tohoku.ac.jp |
| Password | SubID Password |

[SubID] is replaced with your SubID.

■ Set your SubID and SubID-password

• This section explains the instruction for newly setting your SubID and SubID-password.

① Access to the website of Integrated Electronic Authentication System.

You are led to the login window of [SRP](#). Enter your **Tohokudai ID** and the current **common password**. Student ID is not accepted. Then, click “ログイン/Login” button.

<https://www.srp.tohoku.ac.jp/webmtn/LoginServlet>

② Set your SubID and SubID-password.
***It may take about 30 or 60 minutes before an ID is applied to the network.**

Click the “Regist SubID” menu. Setup your SubID and SubID-password. You enter the following three items. Then click the “SAVE” button to proceed.

- ▶ Top
- ▶ Profile Maintenance
- ▶ Change Password
- ▶ Edit Profile (Staff)
- ▶ **Regist SubID**
- ▶ Log out

| | | |
|---------------------------|------------------------------------|------------------------------------|
| Sub ID | <input type="text"/> | (Can change three times per year.) |
| Sub ID Password | <input type="password"/> | (Can change anytime.) |
| Sub ID Password (confirm) | <input type="password"/> | |
| Changed count | <input type="text" value="times"/> | |

| | |
|-------------------------------|---|
| SubID Policy | |
